The now called **Board of Directors** (BoD), formerly the executive committee, had its **first meeting** on Jan 11. The BoD reviewed the plans for the 2022 IFSAM 16<sup>th</sup> congress to take place online Sept 6-8, in cooperation with ANPAD as well as the diffusion in different languages of the IFSAM General Assembly soft policy statement on management research and the planned joint workshops with different member associations (ACACIA, ANPAD, BAM and SIMA) in their 2022 annual conferences. The BoD sincerely thanked and wished all the best to outgoing member Isabelle Bouty, who remains a member of the IFSAM General Assembly and its awards' committee.

We are deeply saddened by the news of **Prof. Consuelo García de la Torre**, member of IFSAM GA as representative of ACACIA, passed away.

Consuelo was extremely committed to and willing to contribute to IFSAM.

She served in two committees of its GA (research and education). She also helped establish initial contact with PRME. And she had expressed her willingness to help with the organization of our 2022 congress.

IFSAM GA and board would like to express their sincere condolences to Consuelo's family as well as to ACACIA leadership and community, of which Consuelo was a founding member.

We will sorely miss Consuelo.
