

## **International Federation of Scholarly Associations of Management (IFSAM) Bulletin – November 2022**

### **IFSAM news**

#### **Results of IFSAM 16th Congress Survey**

Martin Spring and Juliana Bonomi applied and presented the results of IFSAM 16th Congress Survey where most participants described the benefits derived from participating in the Congress as enjoyed hearing leading authors, feeling part of a global community, and gained new awareness and insights. Most persons declared to be participants or panelists. The roles with attending the congress were mainly academic followed by representative of an association of scholar's management. Finally, near 70% of participants would be more inclined to attend the next IFSAM congress virtually only. For IFSAM, it is a challenge to attend to the new modalities of community participation at a global level, as well as to incorporate to a greater extent the participation of industry members and policy makers.
